Test Case: Funds Transfer Validation

Objective: To ensure that funds transfer functionality in the banking application works accurately and securely.

Test Scenario:

1. **Precondition:** The user is logged into their online banking account.
2. **Test Steps:** a. Navigate to the "Transfer Funds" section.
   b. Enter the necessary details, including:
      - From Account
      - To Account
      - Transfer Amount
      - Transfer Date
3. c. Click on the "Transfer" button.
4. **Expected Results:** a. The system should validate that the "From Account" has sufficient funds.
   b. The system should validate that the "To Account" is a valid account.
   c. The system should process the transfer and update the account balances accordingly.

Decision Table:

Scenario	From Account	To Account	Transfer Amount	Transfer Date	Expected Result
Valid Transfer	Valid	Valid	Within Limit	Valid Date	Successful Transfer
Insufficient Funds	Valid	Valid	Exceeds Balance	Valid Date	Transfer Failed - Insufficient Funds
Invalid To Account	Valid	Invalid	Within Limit	Valid Date	Transfer Failed - Invalid To Account
Invalid Date	Valid	Valid	Within Limit	Invalid Date	Transfer Failed - Invalid Date
Invalid From Account	Invalid	Valid	Within Limit	Valid Date	Transfer Failed - Invalid From Account
All Valid But Daily Limit Exceeded	Valid	Valid	Within Daily Limit	Valid Date	Transfer Failed - Daily Limit Exceeded
